Re: Our File 582-765 USSR
PM 588

Dear Les:

We have received an official action in the above case and enclose a photoprint copy of the translation of same. You will note that a reply to the official action should be filed by September 11, 1979.

You will note that the Committee in its action proposes a claim and presumably would be willing to allow that claim provided we submit corroboration of the component percentage ranges enumerated in the claim. Also, they indicate that additional examples confirming the claimed amounts could be submitted. I am not quite certain what they mean on that point.

Please let us have your instructions regarding response at your earliest convenience.

Very truly yours,

George J. Brandt, Jr.
